- › Drinks, guided tour of factory, helmet

FLYER cycling safety training with TCS

Stay safe and have more fun on an e-bike

Have you been off your bike for a while, just bought your first FLYER e-bike, or simply want to feel safer?

On this one-day course you will learn all about the theory and practice of riding an e-bike. Practical exercises with the TCS expert will teach you how to set off and stop safely, the correct braking technique, how to keep your balance, and ride around corners.

The FLYER tour through the rolling hills of the beautiful Emmental valley will give you an opportunity to apply what you have learnt in practice.

The course not only consists of riding training, but also provides you with a special experience: on the guided tour of the factory, you will find out more about the history of the Swiss e-bike pioneer FLYER and gain fascinating insights into the production of our e-bikes.

Registration and information

You will find all the information you need and the dates of the courses on www.flyer-bikes.com.
