

Goroc1

The multi-talented endurance e-bike

The fully equipped Goroc1 is not only a pleasure to ride on asphalt, but also wherever paved roads end. Its mountain bike genes are not only discernible in its appearance and sporty seating position, but also in its dynamic handling, which is supported by the powerful Bosch Performance Line CX drive of the latest generation. Its battery capacity of up to 1125Wh (with the Dual-Battery option) guarantees a massive range, which is ideal for extensive tours and endless differences in altitude. Its lights, mudguards, and luggage rack combined with a frame designed for an extremely smooth ride and with stable all-terrain tyres mean that the Goroc1 is a modern and environmentally friendly "SUV".
