

Gotour2

Everyday hero in a simple design

Reduced to the essential, the Gotour2 offers everything expected of a high-quality E-Bike. While its clear lines make it attractive to look at, its premium low step-through aluminium frame offers a high level of comfort and riding stability. The compact Bosch Performance Line drive provides harmonious and quiet assistance up to 25 km/h. At speeds over 25 km/h or when the motor is switched off, the Gotour2 can almost be ridden like a conventional bicycle with minimal pedal resistance. The luggage rack battery, which is visually discreet and easy to remove, provides a long range. Whether on long tours or for eventful everyday riding, the versatile Gotour2 is an ideal companion.
