

Gotour4

The agile and comfortable e-bike

The Gotour4 is the sister model to the Gotour5. With its smaller 26-inch wheels, it is particularly agile and manoeuvrable. Frame sizes that start from XS and the low step-through frame make the Gotour4 the ideal e-bike for smaller riders, too. The Gotour4 has been consistently designed for comfort with its upright seating position, height-adjustable handlebars with Speedlifter, and comfortable saddle. Combined with the Panasonic motor of the latest generation that provides smooth and powerful assistance and the high-capacity battery designed for a long range, the Gotour4 guarantees endless riding enjoyment.
