

# Uproc4

## The E-Fully for explorers

---

The Uproc4 is the ideal E-Fully for E-mountainbikers who like to ride on different terrains and are looking for a particularly versatile all-mountain fully. With its 140 mm suspension travel and 27.5"+ tyres with maximum grip, it is almost as robust as our Uproc7 flagship on challenging terrain, and slightly more agile on moderate trails. Driven by the Panasonic GX Ultimate motor, which weighs just 2.9 kg, the Uproc4 provides powerful and harmonious assistance – even on the steepest inclines. The cleverly integrated high-capacity 630 Wh battery provides a great deal of energy for long tours covering significant differences in altitude. There can be no doubt that the Uproc4 is your ideal companion for discovery tours.
