

# Goroc4

## The adventurous universal genius

Whether on your daily commute to work, an off-road ride after work, or a weekend outing with luggage, the Goroc4 can manage any kind of tour. With its sporty mountain bike genes and a powerful Panasonic motor with intelligent FIT control, the fully-equipped premium Goroc4 is the ultimate all-rounder. The ultra-responsive full suspension with 140 mm of travel ensures ideal traction, comfort and control even on bumpy paths and at high speeds. The Goroc4 is also available as a high-speed version with pedal assist up to 45 km/h. The Goroc4 is equipped for town and built for adventure.

**Goroc4 6.50 HS**

### Panasonic GX Ultimate motor

Weighing just 2.9 kg, the Panasonic GX Ultimate is one of the lightest in its class, yet at the same time provides record levels of assistance with 90 Nm torque. The powerful drive unit is impressive with its constant power output across an extremely wide pedal cadence range, which means the best level of assistance is also guaranteed at a low pedal frequency.

### FIT display and remote (D1 on the HS model)

The control elements developed by FIT are clearly laid out, simple to operate and perfectly ergonomic – quality you can touch and experience. The high-speed model with the 3.5-inch FIT D1 display comes up trumps with its comprehensive additional functions.

### FLYER SIB-750 or SIB-630 battery

The semi-integrated 630 or 750 Wh FLYER Smart Integrated Battery (SIB) provides a great deal of energy for long tours that cover large differences in altitude.

**Goroc4 6.50**  
Black Shading / Black Gloss

**Goroc4 4.10**  
Olive Metallic / Black Matt

**SIB battery integration with vibration-free fit**  
Smart battery integration makes it easy to change the battery and guarantees a vibration-free fit even in rough terrain. The L-shaped down tube construction maximises frame rigidity and guarantees precise and confident handling.

**140 mm full suspension**  
With its four-link suspension design and 140 mm of travel specifically optimised for e-bikes, the active chassis ensures optimal traction, comfort and control, also on bumpy paths and at high speeds.

**27.5" x 2.35" mountain bike tyres**  
Mountain bike tyres with dimensions of 27.5 x 2.35 inches guarantee traction and riding safety even off road.
