

Gotour2 Gen2

The touring bike in a simple design

Whether visiting friends or exploring your neighbourhood, the Gotour2 Gen2 simply makes cycling fun. Reduced to the essential, the touring bike in a simple design offers everything expected of a high-quality e-bike. The Gotour2 of the second generation has a new and sophisticated design with modern lines and a fully integrated battery. This is pragmatism in its most confidently stylish form. The whisper-quiet Bosch Active Line Plus drive and the tried-and-tested frame construction provide a smooth riding experience and a great deal of comfort. The 500 Wh PowerTube battery is elegantly integrated into the down tube and provides enough energy to be able to explore new routes on the spur of the moment. The Gotour2 Gen2 is just as reliable and entertaining as a good friend.

Bosch Active Line Plus motor

The small yet powerful Active Line Plus drive expands the radius for spontaneous outings. It supports its rider with a torque of up to 50 Nm and reliably provides a comfortable riding experience, with almost no pedal resistance, even over 25 km/h.

Bosch Intuvia display

The Intuvia offers ease of operation, self-explanatory handling and a display that is ideal to read whatever the lighting conditions. You have an ideal overview of all riding data at all times.

Bosch PowerTube 500 battery

Bosch PowerTube batteries boast the highest energy density, a compact size and a light weight. The 500 Wh Bosch PowerTube battery provides enough energy to be able to explore new routes on the spur of the moment.

Smart battery integration

Sophisticated technology and the carefully thought out positioning of the PowerTube battery guarantee a vibration-free fit. Yet the battery is still easy to remove and can be charged either away from the e-bike or directly on the e-bike using the protected charging port.

Stem with an adjustable angle

The stem, which is easy to adjust, is impressive not only in terms of design, but also in terms of stability.
