

Gotour3

The versatile family transporter

The versatile transport options provided by the Gotour3 make it suitable for the weekly grocery shop, an outing with a picnic basket, or taxi services with kit and caboodle. The selected components, stable frame and extremely high permitted total weight of 180 kg ensure that the versatile small transporter is equipped for any load and any purpose. Intelligent details such as the front rack with a basket, the load-bearing rack that is suitable for child bike seats and the fact that it is compatible with trailers complete the total system. The sustainable e-bike transporter is available in two sizes. In just a few steps and without tools, handlebar and saddle height can be adjusted to the height and requirements of various riders. Thanks to the balanced weight distribution and low centre of gravity, the Gotour3 offers safe and stable riding enjoyment even with an additional load. The Gotour3 is a fully-fledged, low-maintenance family member on two wheels.

Tested and approved accessories for the Gotour3:

- FLYER child bike trailer
- Thule Yepp Nexxt Maxi child bike seat
- Hamax Caress child e-bike seat

Panasonic GX Power Plus motor

The Panasonic GX Power Plus is built for every-day use. This particularly quiet and harmonious drive stands out with 300% assistance and 75 Nm torque and is a faithful companion for any ride.

FIT display and remote

The control elements developed by FIT are clearly laid out, simple to operate and perfectly ergonomic – quality you can touch and experience.

FLYER STB-750 or STB-630 battery

With its high-capacity 630 or 750 Wh FLYER Seat Tube Battery (STB), the Gotour3 is a champion of both distance and altitude. The battery can be charged on the bike itself or easily removed. The large grip area makes for simple handling.

FLYER child bike trailer

The FLYER child bike trailer turns the FLYER e-bike into the perfect family transporter. The child bike trailer is securely attached to the e-bike using the K-LINK system and is ready to go within seconds. Thanks to the additional stroller and jogger wheel, the child bike trailer can be used in a variety of ways. The clever child bike trailer offers a wide range of innovative detailed solutions:

- Drawbar folds up and folds away safely
- Simple to switch between the three functions: trailer, stroller, and jogger
- Folding system can be operated with one hand
- Safe Fidlock five-point harness with washable padding
- Suspension/shock absorber system can be set to three levels
- Additional storage space for shopping
- Height-adjustable push handle
- Two rear lights that can be removed thanks to the MonkeyLink system
- Attachable splash guard
- Tyres with reflector strips
- Drinking bottle holder
- Integrated sun protection

Speedlifter Twist

With the Speedlifter Twist, the handlebars can be vertically adjusted in just two steps (no tools required), allowing you to set a comfortable seating position. The handlebars can be turned 90° to save space when storing the FLYER e-bike.

Front rack for shopping

The front rack is ideal for transporting shopping and smaller loads up to 10 kg. The robust front rack is a fixed component of the frame. It ensures maximum stability and confident, smooth handling even when you're carrying luggage.

Transport options

The Gotour3 is equipped with particularly stable components, which means that it has an increased permitted total weight of 180 kg. This opens up all kinds of transport options, including use with a FLYER child bike trailer. The integrated rack alone can take a load of 27 kg and is also compatible with a child bike seat.
