

# GOROC X

## THE DECATHLETE

**Whether on asphalt or off-road, day or night, on the way to work or all packed for a multi-day tour – the Goroc X knows no limits. This incredibly strong, full suspension crossover e-bike is always ready to explore new territory.**

The 29-inch wheel set in frame sizes M-XL keeps the rolling resistance low and has plenty of traction. In the frame size S, a 27.5-inch wheel set ensures an

agile handling. The fully integrated 750 Wh battery (630 Wh in size S) is easy to remove laterally for external charging. For particularly long tours, the 540 Wh range extender can be added in just a few steps and almost doubles the range. Thanks to the standard interface, the range extender can be added on at a later date.

**45**KM/H  
HIGH-SPEED OPTION

## Panasonic GX Ultimate Pro FIT

95 Nm torque means no climb is too steep

## Up to 1290 Wh battery capacity with range extender

Increased range for long excursions and plenty of elevation gain

## 140 mm travel

Traction, stability, and comfort on any terrain

The FIT 2.0 control elements combine intuitive operation, readability, a smartphone connection and innovation functions into a single intelligent system. Even with high loads, the powerful motor and permissible total weight up to 150 kg ensures a smooth, stable ride.

Smart details such as the internally routed cables and the speed sensor integrated into the frame produce a clean aesthetic and highlight its premium character.
